About Grow & Glow

Grow and Glow is a purpose-driven initiative founded by Mwendwa Mungatia. It empowers individuals and communities to grow inwardly and shine outwardly through four key pillars: mentorship, environmental stewardship, public speaking, and event moderation.

This proposal seeks to invite your organization to collaborate with us in creating lasting impact through environmental stewardship activities that heal our land and uplift communities.

Why Environmental Stewardship?

At Grow and Glow, we believe that creation care is sacred. Stewarding our environment is an act of love—for ourselves, future generations, and the earth we've been entrusted to protect.

Through clean-up drives, tree planting, climate education, and nature-centered experiences, we aim to cultivate a deeper connection between community, nature, and purpose.
